Norg.—The figures sometimes given in brackets, at the end of remarks, refer to the volume and page of Chionicle containing fuller information. The letters s.f. mean "slaking fund," and l.g. "land grant." Companies consolidated with or leased to others will often be found under the consolidated or leasee's name.

* For stocks, this means the miles of road operated; for bonds, the unles covered by the mortgage.

† These faures are foll us, showing the denominations or par value of each state of stocks and bonds.

† The lotarest ner annum is given on bonds, but the list dividered on stocks; g means sold; f, free uf U.S. tax; c, extra; s, stock or scrip.

# The Commercial Times.

# COMMERCIAL EPITOME.

FRIDAY NIGHT, June 27, 1873.

There is a change in the temper of the market for merchandise; a disposition to speculative action being apparent, which has long been wanting in trade circles. This, perhaps, is due to the fact that some staples have been so low as to attract attention from parties having no immediate relations with them; having, in fact, declined to prices lower in a depreciated currency than were current in gold in the year of extreme depression which preceded the suspension of specie payments.

Provisions have been variable. New mess pork has been subject to wide fluctuations and has sold largely. A failure in Chicago, a weak market there, and loss of confidence here, have exerted a depressing influence on prices, which has been relieved in a measure by an active demand at the lower figures, and a disposition to cover "short" contracts for July. New mess sold for July at as high as \$16, but subsequently declined to \$15 50: business was done for August at \$16, after which there was a decline to \$15 75; there has been some business on the spot, \$16 for new mess for export, \$13 621 for extra prime, and \$18 371 for clear. Lard has also shown weakness, with pretty free sales at the decline; prime Western steam has sold at 8 13-16c. for June, 83@8 13-16c. for July, 9@9 1-16c. for August, and 91c. for September. Bacon has been in small supply, and is higher; short clear has sold at 9c., and long clear has latterly been held at that figure, after some business at 8½c. Cut meats have been in moderate demand and prices steady. Beef has been in light demand, and prices of export descriptious have declined, closing at \$17@21 for prime mess, and \$21@25 for India mess. Beef hams have been more active. Butter has been in fair demand and steady. Choose has been in good demand at a further decline, 13c. being latterly the general price for prime, while "extra fine," for the London market, has been quoted at 131c. To-day mess pork was firmer, but less active; new mess sold at \$15 90 for August, and was quoted at \$15 60 for July. Lard was quiet on the spot, but sold to some extent at 91-16c. for August, and 9½c. for September. Bacon and cut meats were firm. The exports of provisions from New York from November 1 to June 24, inclusive, for three years have been as follows:

|           | 1872-73.   | 1871-72.    | 1870-71.   |
|-----------|------------|-------------|------------|
| Porkbbls  | 124,932    | 107,432     | 105,744    |
| Beefpkgs  | 75,139     | 69,661      | 119,816    |
| Lardibs   |            | 123,539,860 | 53,360,314 |
| Baconlbs  |            | 166,891,317 | 49,986,586 |
| Butterlbs |            | 3,234,722   | 2,806,516  |
| Cheeselbs |            | 18,254,465  | 25,080,380 |
| Tallowlbs | 36,460,900 | 40,735,266  | 18,716,114 |
|           |            |             |            |

Freights have been dull for shipments of breadstuffs, and rates have become somewhat unsettled, whether for room on the berth have become somewhat unsettled, whether for room on the berth or for vessels to charter, with some weakness in the former case, especially in the engagements by the London steamer. A large number of petroleum charters have been made at about late rates. To-day, to Liverpool, grain 10@10½d. by sail, and 12@12½d. by steam. Small vessels to Cork for orders quoted at 9s. 3d. The petroleum charters included 8s. 6d. to Cronstadt and the Adriatic, and 7s. 6d. to the Mediterranean.

Petroleum further declined early in the week; refined in bbls. tonching 18%@18½c., and in cases 24c.; these prices led to a large business, but to-day there was further depression, and closing prices were, for refined in bbls., 18½@18½c., and in cases 24c.; crude in bulk, 8@8½c., and naphtha in shipping order 10@10½c. Rosin has been dull, and strained has declined to \$2 85@\$2 90 per bbl. Spirits turpentine declined to 44@45c. for Southern and New York bbls., when large sales were effected, and the market became more steady.

became more steady.

Oils have been dull and drooping. Linseed is quoted at 97@
98c., in casks, and crude sperm sold at \$1 45. Metals have been 98c., in casks, and crude sperm sold at \$1 45. Metals have been generally quiet, but in Straits tin there has been a speculative movement, aggregating 1,500 slabs at 31½@31½c., gold, per lb., and in plates there has been more activity, including charcoal tin at \$11 12½@\$11 50; coke tin at \$9 12½@\$9 50, and charcoal terne at \$9 87½, gold, per box. Layer raisins have been active at a decline to \$1 95 per box. In hops sales of several hundred bales are reported, including prime domestic at 45@50c. Tallow has been fairly active at 8½c. for prime, Whiskey closed at 93c. Wool has been quiet, but new Ohio fisece has sold at 49c.; California spring clip at 25@38c., and Western Texas, 20@32c.

In tobacco there has been a firm and fairly active market for Kentucky leaf, the sales for the week aggregating 1,000 libds, including 800 hlds. for export and 200 do. for home consumption. Prices are queted for new crop at 6½@8c. for lugs, and 9@14c. for leaf, common to fine. Seed leaf shows a still further increase of activity, the relatively low prizes having at length apparently stimulated the demand. The sales have been: Crop of 1870, 100 cases sundries, 8@9c.; crop of 1871, 200 cases sundries at 15@50c., and 400 cases Connecticut fillers and seconds, the fillers at 8@9c., and seconds at 15@18c.; crop of 1872, 105 cases Pennsylvania of private terms.

and seconds at 15@18c.; crop of 1872, 105 cases Pennsylvania on private terms, 50 do. Ohio at 6½c., 600 do. Wisconsin at 5½@ 6½c. Spanish tobacco in moderate demand and firm; sales 500 bales Havana at 85c.@\$1 02½.

Experts of Leading Articles from New York.
The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1873, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show total values, including the value of all other articles besides those mentioned in the table.

| Total since January 1, time January 1, time January 1, time January 1, time January 1, time January 1, time January 1, time January 20, 258, 218, 250, 260, 283, 284, 284, 284, 284, 284, 284, 284, 284                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                      |

# COTTON.

FRIDAY, P. M., June 27, 1873.

By special telegrams received to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening, June 27. It appears that the total receipts for the seven days have reached 17,686 bales against 19,672 bales last week, 18,345 bales the previous week and 25,130 bales three weeks since, making the total receipts since the first of September, 1872, 3,485,771 bales against 2,693,660 bales for the same period of 1871-72, showing an increase since September 1, 1872, of 792,111 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of the five previous years are as follows: ponding weeks of the five previous years are as follows:

| Received this week at-    | 1873,                 | 1872.               | 1871.                   | 1870.                   | 1869.          | 1868.             |

The market for spot cotton this week has remained in much the same position as last reported. There has been a slight improvement in the demand, but prices have been nominally unchanged, with a continuance of the feature noted a week ago to wit, all growths of the same grade being quoted at the same to wit, an growing of the same grade being quotes in the same price; thus, middling uplands and middling gulfs being alike at 21c. There is also no relief to the extreme depression in "ordinary," which is caused by the fact that it is not available for delivery on contracts, and is not wanted for export or consumption. For future delivery the demand has been only moderate, but prices have been variable. Immediately submoderate, but prices have been variable. Immediately subsequent to our last there was an upward turn, which subsided, however, towards the close of Monday's lustness, while Tuesday's prices were slightly below those of Friday last. Wednesday there was a renewal of the buoyancy which continued throughout Thursday, prices for July and August on the latter day being within \(\frac{1}{2}\overline{Q}\); of the highest points touched during the current speculation; at the close on that day, however, the market was a little weak for the current crop, but with the recurrence of wet weather at the South more firmness was developed for the next crop. To-day the depression for the present crop was increased. crop. To day the depression for the present crop was increased, but for December there was a good business at full prices. It was stated on the market that the notices for deliveries on July was stated on the market that the notices for deliveries on July contracts were in excess of anticipations, and more in fact than the buyers could conveniently handle, and hence the weakness noted. The latest sales reported were for July 20 916, for August 20 916, for September 19 1.16, December 181. The total sales of this description for the week are 82,950 bales, including 150 tree on board. For immediate delivery the total sales foot up this week 5,390 bales, including 1,372 for export, 2,821 for consumption, 1,197 for speculation, and — in transit. Of the above 800 bales were to arrive. The following are the closing quotations: closing quotations:

|                                                                                          | Upland and<br>Florida.       | Mobile.                                        | New<br>Orleans.              | Texas |

WEATHER REPORTS BY TELEGRAPH.—From the Atlantic and Gull States there is an improvement in the weather and condition of the crop reported in our telegrams to night, but from the West, especially the country tributary to Memphis, the accounts continue unsatisfactory. At New Orleans there has been rain on one day only, and that was slight; the weather all the week has been hot and close. Our correspondent at Mobile states that it has rained there on more than half the days of the week, one heavy; the rain was the latter part of the week, the earlier portion being clear and pleasant; crop reports are more favorable; good progress is being made in some sections in clearing the fields of grass and weeds. At Selma it has only rained on two days; the accounts of the crop are improving; the fields are being rapidly cleared of g ass. It has rained only one day at Montgomery; our telegram adds that the planters are still fighting grass. They have had rain on three days at Macon, on two days at Columbus, and on three days at Charleston. Our Charleston telegram states that the rain there was the latter part of the week, the early part being pleasant and clear. At Augusta there has been rain on one day—a wind storm; cool change yesterday. Our correspondent at Memphis states that they have had rain (showers) there every day but one, and that the believes that the crop has been damaged by this continued rain 15 per cent. They have also had frequent showers at Nashville. Our Nashville correspondent adds that they are having too much rain in that vicinity, but no serious damage has been done as yet. The thermometer at Memphis has averaged S3; at Mobile, S4; at Montgomery, 87; Columbus, 88; and at Macon, 85.

COTTON ACREAGE.—On the 14th of June we issued our annual review showing the condition of the cotton plant up to about June 1st, and the quantity of land given up to its cultivation this year. We have received this week from New Orleans the report of their Cotton Exchange on the same subject, and also from Washington the report of the Agricultural Bureau. It is a little remarkable that in the general result these returns of acreage received this week agree almost precisely with our own returns given two weeks since, although the details of the States in some cases differ considerably. Our percentage of increase for the entire cotton belt was 11 per cent, the New Orleans Exchange is 11½ per cent, and the Agricultural Bureau not 12 per cent, as it gives it, but about 11 per cent, as we show below. It would seem, therefore, that this estimating the feathers on a Spring chicken, as the Macon Telegraph very cleverly calls acreage reports, has some of the elements of an exact science. As for ourselves, we ended or to reflect simply the opinions of correspondents (not carpet-baggers, for we have no confidence in them, but Southerners), who have the reputation of being careful, honest, moderate men, combining intelligence with experience, and we have no doubt that the figures we give, made up from such sources, are a very close approximation to the truth. For the convenience of our readers we have prepared the following as the results of the three reports. The Agricultural Bureau and the New Orleans Exchange give their figures simply in percentage of increase in each State; for the former, therefore, we have worked out the actual acreage this year on the basis of last year's acreage, and for the latter we use the result obtained in the same manner by the New Orleans Picajune:

| North Carolina             | 496,855    | 5/14,642        | 514,953       | 451,714   |
| Tennessee                  | 613.267    | 607,712         | 635,367       | 552.493   |
| Arkansas                   | 888,349    | 813,283         | 857,249       | 779,318   |
| All others                 | 231 957    | 231,957         | 269.153       | 218.828   |
| Total acres                | 9.802.815  | 9,885,210       | 9,843,723     | 8,867,557 |
| Acrea increase over '72    |            | 1.017.653       |               | -,,,      |
| Per cent increase over '72 |            | 11 % p. c.      | 11 p. c.      |           |
|                            |            |                 |               |           |

Our friends will see by the above that the result of the Agricultural Bureau's percentage in each state makes the total average 11 per cent instead of 12 per cent, as the Washington report gives it. In fact, had we not applied to "All others," the large increase the Bureau chains for Virginia (23 per cent) the average would be still less. We notice it calls its own estimates "rough;" we may be pardoned for expressing the opinion that they would carry with them more weight if they were a little less so. The Bureau's report also includes a statement of the condition of the crop near the close of May, which we see no object in giving, as we brought down the information by mail with regard to the crop last week to a much later date, and our telegrams every Friday reflect very clearly each subsequent week's progress.

BOMBAY SHIPMENTS.—According to our cable dispatch received to-day, there have been 12,000 bales shipped from Bombay to Great Britain the past week and 3,000 bales to the continent, while the receipts at Bombay, during the same time have been 6,000 bales. The movement since the first of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, June 26:

| ı |      | -Shipmer         | ats this w      | eek to- | -Shipme           |         |         |                    |
|---|------|------------------|-----------------|---------|-------------------|---------|---------|--------------------|
| I |      | Great<br>Britain | Con-<br>tinent. | Total.  | Great<br>Britain. | Con-    | Total.  | Week's<br>receipts |
| Į | 1873 |                  | 3,000           | 15,000  | 604,000           | 167,000 | 771,000 |                    |
|   | 1372 |                  |                 | 29,000  | 558,000           | 227,000 | 785,000 | 28,000             |
| I | 1871 | 15,000           | 7,000           | 22,000  | 544,000           | 271,000 | 815,000 | 20,000             |

From the foregoing it would appear that compared with last rear there is a decrease this year in the week's shipments from Bombay to all of Europe of 14,000 bales, and that the total movement since Jan. 1 shows a decrease in shipments of 14,000 bales compared with the corresponding period of 1872.

Our cable dispatch to-night also states that the usual rainy

Our cable dispatch to night also states that the usual rainy senson has set in, which is the cause of the small receipts at Bombay, and that the rain fall is proving very satisfactory and abundant.

abundant.

GUNNY BAGS, BAGGING, ETC.—The demand for bags seems to have fallen off slightly; they are quoted, however, nominal at 14½C. Calcutta advices under date of May 16 state that about 500 bales have been placed at 14.0.0 rs. per 100 for the American market. Machine made bags, D quality, are depressed for immediate delivery, but the C quality having advanced considerably in Bomhay, has checked the downward tendency at Calcutta. For domestic cloth there is a steady market, with a fair distributing business; 500 rolls sold at 13½@14c. We note sales in Calcutta of 125 bales in bond at 10c currency, duty paid; the market close here at 13½c. Jute is in moderate demand, but sales have not extended to round lots. Butts are held steadily, with a moderately active market.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 28,615 pales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in The CHRON-ICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week:

NEW YORK—TO Liverpool, per steamers City of Brooklyn, 449...

Batavia, 250 ... Rassia, 247 ... Canada, 1,492 and 181 Sea Island ... City of Bristol, 986 ... Nevada, 2,730 ... per bark Woodball, 81 6. To Hamburg, per steamer Thuringia, 49

NEW ORLEANS—To Liverpool, per steamer Legislator, 5,165 ... per ships Scioto, 2,970 ... Bella Juana, 1,368 ... Wyoming, 2,456 ... 11. To Havre, per bark J. F. Pust, 1,227 ... 1. 1. To Cronstadt, per bark Carl von Dobela, 1,430 ... 1. To Cranstadt, per bark John L. Diamock, 3,100 ... 3. Charleston—To Barcelona, per bark Nuestra Senora de la Lanzada, 114

Upland.

Texas—To Liverpool, per bark Herbert, 3,499 and 6 Sea Island ... per brig Trio, 581 ... 4. Boston—To Liverpool, per steamer Heela, 243

Philadelphia—To Antwerp, per steamer Vaderland, 112 3,100 114 4,042 112 

The particulars of those shipments, arranged in our usual form

| are as follows; | Liver.  |       | ffem. | Ant  | Crons | Barce- |        |

#### BREADSTUFFS.

Faiday P. M., June 27, 1873.

With the speculative feeling in the flour market, as noticed in our last, there has been in the course of the past week a general recovery of prices, and the improvement in quotations is in some cases 25c. per bbl. Receipts fell off, and the offerings on sale were materially reduced. There was a partial decline in freights which permitted shippers to pay the advance asked, and with the check to the decline in prices there was a marked improvement in the demand from the local and coastwise trade. In the three days ending with Wednesday the sales approximated 55,000 bbls! embracing considerable lines of No. 2 at \$3 75@\$1 25, superfine at \$5 25@\$5 40, and common to good shipping extras at \$6@\$6 40. Yesterday the market opened with a further advance asked, but with increased receipts and pretty free sellers, and the close was dull and weak. Te-day some 5,000 bbls, common extras were sold at \$6@\$6 25 mostly at the higher rate for full lines, but in other grades the market was quiet.

The wheat market has been only moderately active, and yet prices have ruled firm, with a slight upward turn towards the close. A considerable portion of the receipts had been sold for export before arrival and did not come upon the market. Wednesday there was a good business, at \$152@\$153 for No. 2 Milwaukee and Duluth, \$1 551 for No. 1 Chicago, and \$1 48 for No. 2 do., with No. 3 spring selling at \$1 37@\$1 42, and large lines of No. 2 Milwaukee for all July at \$1 48. Yesterday prices were generally one cent higher; No. 2 Milwaukee sold to a large extent at \$1 52@\$1 53 on the spot, \$1 49 for all July, and \$1 48 for the first half of July; also, choice Canada club at \$1.55 in bond. Winter wheats have been dull and depressed, car lots of prime red going as low as \$1 60. To-day the market was unsettled. There was some demand for No. 2 Milwaukee to fill contracts for June, in detault of arrivals, and \$1.54 was paid, besides some "settlements" at that price.

Indian corn has been active, and prices about steady. The sales of the past week have been fully a million bushels, and the bulk of the business has been in canal mixed, steamer condition, at 52@53c., with some early in the week at 50@51c. All other prices have been exceptional; warm and damp at 41@18c.; choice lots, including receipts by rail, at 51@63c.; old and new mixed at 56c.; prime sail mixed to arrive at 59c.; old mixed in store, 64c.; new yellow 64@65c., and white 7!@73c. Receipts at the Western markets have materially increased, and for last week were nearly as large as for the corresponding week last year. There has been some excitement in Chicago, growing out of the charge that corn in store had been fraudulently posted as "hot" for the purpose

of causing a panic among holders. To day there was a good b usiness in new mixed, at 45@46c. for heated, 50@53c. for fair to good steamer mixed, and 60@61c. for choice dry new mixed, received by rail.

Rye has had a steady sale for the continent at 85@86c. for Western.

Oats have latterly been in speculative demand, stimulated by a falling off in the receipts, both immediate and prospective, and No. 2 Chicago, from 421c., early in the week, advanced and sold yesterday at 441@441c. To-day there was a further advance, with a good business in prime new mixed, at 45@451c.

### GROCERIES.

FRIDAY EVENING, June 27, 1878.

The distribution is somewhat restricted, and the market shows rather less animation both in first and second hands. The feeling is generally steady, however, and sugars are the only goods that have undergone a quotable decline. The tea market remains quiet and chiefly nominal. Coffee has moved slowly most of the week, and closes dull at steady prices. The molasses trade has been dull since our last, and very little except trade qualities has been sold. Dried fruits have been quiet, and the market on some lines is a shade easier than at the time of our last report. Spices are dull and unchanged.

#### TEA.

The same uninteresting features that have been noted for some time past continue to pervade the market, and the duliness is perhaps more intense than at the time of our last report. There is not much tea coming :n at the moment, the only arrival this week being one cargo of Japan. This cargo went into stock, however, and is considerably in excess of the requirements of the trade. There has been no sound tea put into the auction houses this week, and the little damaged stock that has sought an ontlet through this channel has been moved with difficulty. The small parcels of Japane and Greens which are taken for current consumption are bringing steady prices, and are quoted as before. Oolongs are entirely nominal and move very slowly, but are not quotably altered. The transactions in lines have been very small during the week; the sales of invoices amount to 1,000 half chests Japans, 1,400 do. Oolongs, and 1,000 Greens.

Imports at New York tha past week have included 641,129 lbs. Japan, per "Rollo," from Yokohama. The receipts indirectly have been 269 pkgs. by steamer.
The following table shows the imports of Tea into the United States from January 1 to date, in 1878 and 1872:

|                          | Black.     | Green.     | Japan.                 | Total.     |
|--------------------------|------------|------------|------------------------|------------|
| Atlantic ports, 1873lbs. | 12,690,590 | 12,806,177 | 8,683,163<br>7,042,644 | 34,181,930 |
| Atlantle ports, 1872     | 11,946,795 | 13,566,853 | 1,042,044              | 32,556,292 |

The indirect receipts at New York, principally overland receipts from San Francisco, have been 49,693 pkgs. since Jannary 1, against 82,243 ast year. Imports at San Francisco from Jan. 1 to June 1, were 429,510 lbs. of China 1,127,595 lbs. of Japan and 200 lbs. of Java tea.

### COFFEE.

The call for the Brazil grades has been somewhat less active since our last, and the supply has been increased by considerable arrivals. The Rio telegram this week was of a very favorable tenor, and notes no essential change in tha position of affaira there. The current prices in Rio are above our market, and coffee can only be laid down here at a loss. This fact prevents the market from weakening under the effects of a dull trade and slowly accumulating stocks, though neither of these influences have become sufficiently serious a s yet to be much felt. The milder grades of coffee continue in very small supply, and the grades most salable are very difficult to obtain. The cargo of Maracaibo which arrived last week was resold early after its arrival, and did not enter the accounted stock at all. There are several more cargoes on the bar at Maracaibo, with poor prospects of getting off. Java is in fair request, and is firmly held. The stock of Mexican has been cleared out, and but little is left of other qualities. The sales of India coffees include 11,239 mats Java, ex "W. A. Farnsworth;" 2,423 bags Mexican, 1,194 do. Savanilla, 377 do-Costa Rica, 130 do. Coracoa; 4,165 do. Maracaibo, ex "Victoria Perez," all sold into consumption; and 450 bags St. Domingo, shipped to Havre by first hands. The sales of Brazil coffees amount to 1,038 bags Rio, ex "Merrimack;" 836 do., ex "St. Ursula; 4,452 do., ex "Preciosa;" 4,000 do., ex "Theresa;" 500 do., ex "Urbano;" 178 do., ex "Carl," and 1,000 do., ex "Adelaide," at Baltimore, and 1,000 at Galveston.

Imports have included 4,000 hags Rio, per "Titania," 4,000 do., do., per "Waldemar," 4,001 do. do., per "Gustaf Adolph," 3,000 do. do., per "Sportsman;" 11,239 mats Singapore, per "W. A. Farnsworth;" 450 bags St. Domingo, per "Weybosset," and 2,426 do. sundries.

The stock of Rio June 26, and the imports since Jan. 1, 1873, are as follows :

* includes mate, &c., reduced to bags.

† Also 14,370 mats.

#### SUGAR.

The market has not been very active eluco our last report, and there has been less firmness manifested by the holders of raw goods. Buyers for refining purposes have had less activity in their goods, and have restricted their purchases in consequence. The result has been a contraction of their views, to meet which holders have come down about 1/4c, upon the better grades of refining sugars. At this decline the cales remain very moderate, and the market closes in buyers' favor. Grocery sugars sell only in a limited way, and sympathize in tone with the refining grades. The movement in refined sugarthis week has been rather light, the grades which usually sell freely at this time of the year being quiet and destitute of new feature. The market has yielded a fraction during the week, though the quotable changes are very The sales of raws since our last have included 3,487 hbds. Cuba, 8@91/c: 1,515 hlids. Centrifugal, 8¼@9½c; 1,336 blids. Porto Rico, 7½@9 3-16c; 200 boxes clayed Havana, 8½c.; 1,616 boxes Havana, 8½@9c.

timports at New York and stock in first hands June 26, were as follows:

There was a very active trade in molasses at the close of last week, and large sales of refining grades were effected, the terms of sale being slightly in buyers' favor. This week the trade has been very slack, and at the close the market is easy, but not quotably lower. The stock of Cuba, including grocery grades, amounts to 5,662 hhds. In grocery grades the Irade has been light, and with more liberal arrivals, the stock is increasing somewhat. Porto Rico is now held to the amount of 967 hbds. and English Islands to 1,568 blids. Both of these grades are held with a good degree of steadiness at previous The sales of domestic are not very liberal, but the stock continues to grow smaller, and the last count gives us but 800 bbls. Prices remain firm, 82c. being obtainable for the choice grades, which are scarce. Syrups are quiet but steady, at former prices. The sales for the week amount to 70 hhds. Porto Rico in lots within the range, and 100 bbls. New Orleans 78@82c.

The receipts at New York, and stock in first hands June 26, were as follows:

### THE DRY GOODS TRADE.

FRIDAY, P. M., June 27, 1873.

We find little to record in connection with the general features of the dry goods market. The trade is still marked by extreme dullness, and it is difficult to effect sales even of small amounts excepting as the distribution so far reduces atocks as to render it necessary for dealers to replenish. The increasing dealer manifested by jobbers to close out their stocks has been the means of causing still further irregularities in prices, and the market on many lines of cotton goods at the close of the week is barely quotable. The practice of cutting rates seems, indeed, to be carried to excess this season, and goods of a staple character which might safely be carried over are sacrificed for the purpose of making a more favorable showing in the annual accounting of stocks. The prices quoted by jobbers are very low in some eases, and it would seem that there ought to be no difficulty in finding buyers, but there appears to be no inclination to take goods at any price unless they are needed. Finances are comparatively easy now, but the future is shrouded in too much uncertainty to make dealers feel easy, and the conservatism everywhere displayed is a most hopeful sign. Collections are still somewhat difficult, but there is no general complaint.

DOMESTIC COTTON GOODS.-The market for all descriptions of cotton goods continues to exhibit the signs of extreme dullness previously noted and is without material change. The upward tendency of raw cotton has been favorable to the market for goods and a firmer feeling is noted in first hands for many of the more staple qualities of goods. Prices have undergone no changes, except in second hands, where there are many irregularities caused by the concessions which jobbers are making. These are principally upon brown sheetings and shirtings, several makes of which, in the medium and lower grades, have been reduced. Bleached goods of the lower grades are accumulating, and there is rather less buoyancy in prices, although no quotable reductions have been made as yet. Fino grades are steady, with very few sales. There has been little doing in any styles of colored cottons, and previous quotations are nominally repeated. There has been very little call for prints, and the market has been quiet, although some stir has been occasioned by the reduction of many of the leading styles on the jobbing stands. Sales were not liberal, however, and the market closes quiet and unchanged.

DOMESTIC WOOLEN GOODS.-The call for heavy-weight woolen goods is becoming' more liberal, and the market exhibits a The trade is still far from decidedly more favorable tone. being all that could be desired, but any improvement is acceptable, especially when the outlook is favorable for a steadily improving demand. The clothing manufacturers are of course, the principal buyers, and their purchases are chiefly of the better grades. The stock of low grades is considerably in excess of the wants of the trade, and these goods are hard to move at any price. Woolen jobbers are not in the market to any extent as yet, but some of them are placing orders for limited amounts of fine cassimeres and overcontings to be filled later in the year.

Foreign Goods.-Trade is restricted to the few lines which are really desirable at this period of the year, and but little is doing either with importers or jobbers, the former being especially quiet. The stock of goods imported for spring sale and left over in the hands of importers is unusually large. Silk goods are in greater excess than any other class of fabrics, and importers and consignors will do well to remember that large quantities of the ribbons, &c., which have been sold from time to time in the auction rooms are still held by the distributors, who have availed themselves of the extremely low prices which have been current to lay in supplies, anticipating in a great measure of their autumn requirements; hence the necessity of light importations. During the past week there was a manifest improvement in the distribution of white goods, which extended to organdies, Victoria lawns, piques and tarlatans, all of which were in fair request for moderate assortments. The various styles of cotton and linen dress fabrics were in limited Inquiry, but fancy worsted insterials were exceptionally quiet and unsalable even at greatly reduced prices.

We annex a few particulars of leading articles of domestic manufacture our prices quoted being those of lending jobbers:

SAFE AND PROFITABLE INVESTMENT.

This Railway is a corporation organized under the taws of the State of Iowa, which is the most prosperous State in the Northwest, being the only State in the Union free from Dref. The population has doubled on the last ten years and now numbers a milliou and a quarter, which places the State, in rank, as number eleven in the Union, against number twenty in 1860. Emigration is constantly seeking this State in preference to others, the freedom from taxation, the natural advantages of the soil; the liberal laws which allow aliens to acquire and hold real estate without naturali zation, offering special inducements to those going West. The Minnesota Division, running from Burling West. The Minnesots Division, running from Burling ton, lows, to Austin, Minnesots, a distance of 260 miles, was completed in February, 1872, and earned during that year an average of \$83,000 per month, being a monthly increase of \$35,000 on the earnings \$1,500,000, or more than \$125,000 per month. The Milwaukee Division, from Cedar Bapids to Postville, on the Milwaukee & St. Paul Railroad, a distance of 110 miles passes through one of the richest sections of the State of Iowa, and furnishing an outlet to Mil-wankee and the Lakes.

The Burl'ngton, Cedar Rapids & Minnesots Railway bonds bave been admitted to the New Y rk Stock Exchange, and are daily dealt in and quoted on the official lists, thus furnishing dealers an advantage enjoy d by few of the new issue of Railway Bonds.
The entire loan has been sold, except about \$800,000,

which we now ofter to close it out.
